“The event at the annual carnival bell ringers' pageant” is a case study devised by teachers at Turistička i ugostiteljska škola Dubrovnik for the “Culture and Languages for all” project.

Its aim is to develop language skills for learners of English at level B1 of the Common European Framework of Reference for Languages. It can be used with groups of 4-8 students, guided by a language teacher. The case study also contains preparation activities which students can complete autonomously, either in a language laboratory or at home.

In completing the case study, learners have the chance to improve the skills of reading, spoken production and spoken interaction. They have access to a number of authentic texts to read. In a section devoted to warm-up activities, learners have the opportunity to do exercises, related to the topic of the case study, with the dual aim of acquiring knowledge about the topic and improving language skills. Finally, great attention is paid to speaking skills, both production and interaction, with learners having to participate in a discussion, make a narrative, express agreement/disagreement, offer a solution to a problem.
